

Rehmat Ullah Kundi

Rehmat designs and builds hydrams for humanity projects in Pakistan. We are proud to have assisted Rehmat with his design efforts and we are especially proud and excited about his hydram service projects.

Rehmat teaches electrical engineering at a local Pakistan university. Rehmat received his MSEE from the University of Kansas. He worked in Santa Clara, CA for several years before returning to Pakistan in 1991 for personal reasons.

You may see some of Rehmat's projects at his FaceBook website:
